

BuildAI Pitch Event

Startup Evaluation Report | Jane Doe | Acme AI Corp | 6 March 2026

SECTION 1 — FOUNDER PROFILE

Who They Are	10 years experience in AI, previous founder.
Why Entrepreneurship	deeply passionate about solving developer productivity
Financial Commitments	None
Goals	MVP in 3 months, 1m ARR in 2 years.
Grit Score	HIGH Evidence: Bootstrapped previous company to profitability
Business Thinking	Understands B2B SaaS and CAC vs LTV
Founder Structure	Solo Founder

SECTION 2 — SOLUTION SNAPSHOT

IDEA	AI-powered code reviewer that understands full context.
Macro context	Developers spend 30% of time reviewing PRs.
Why AI	Requires deep semantic understanding of code beyond static analysis.
Development Stage	Prototype
Assets	Proprietary datasets of reviewed PRs.
Pitch Deck	Not provided
Website	https://acme.ai

SECTION 3 — 5-ZONE SCORECARD [PASS / MODERATE / FAIL]

Zone	Score	Analyst Note
Desirability	PASS	High pain point for engineers
Viability and Scalability	PASS	Standard B2B SaaS model
Feasibility	MODERATE	High technical risk
Defensibility	MODERATE	Relies on data moat over time
Affordability	PASS	\$50/mo is well within budget

SECTION 4 — FLAGS

RED FLAGS

Solo technical founder without dedicated sales motion

Currently pre-revenue with no active MRR

GREEN FLAGS

Previous founder experience

Deep technical expertise in the domain

SECTION 5 — AI MISSION FIT [HIGH / MEDIUM / LOW]

Mission Fit	HIGH
IndiaAI Pillar	IndiaAI Application Development Initiative
Awareness & Alignment	Aware
Reasoning	The startup aims to build a core AI application that improves efficiency, aligning directly with the application development pillar.

SECTION 6 — AI VERDICT

Verdict	SEEMS LIKE A GOOD FIT
Reasoning	Strong technical founder addressing a real problem with a clear business model. Technical risks exist but are offset by the founder's experience.
